

MISSING THE MARK

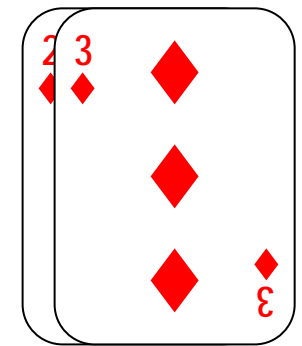

Force Card on top
Gimmicked Card second from the bottom
"Wrong Card" on the bottom

Force the card and have put in deck. Overhand shuffle keeping bottom cards in place.

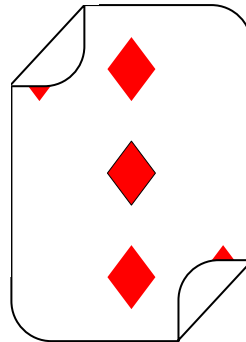

Use bottom force move to "find the card." Show and get response that you missed it.

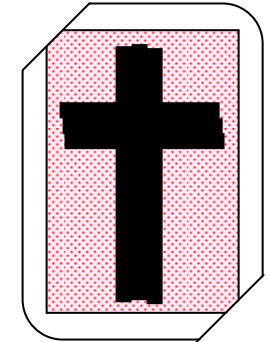

Double lift "wrong card" and gimmicked card together, and put on the top of the deck face down.

Fold edges of top card (the gimmicked Card) over to hide the numbers in the corners...then cover center pip with finger saying you've changed it. Explain that you missed the mark, which in archery is called sin. Which is where we get our word "sin" from.

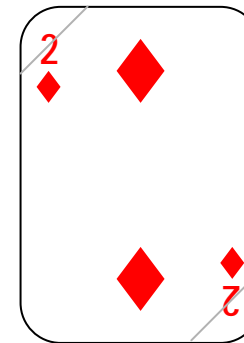

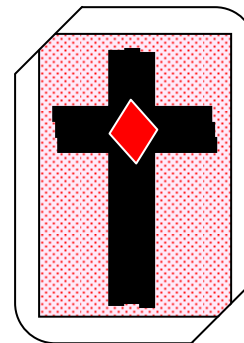

Then put the card down and draw a cross on the back. Explain that because of sin, we won't get into heaven. But Christ came and died on the cross for our sins.

Turn card over and say that for those who accept this gift, the sin in our life is taken away. Then dramatically peel away the center pip.

End the effect by placing the sticker on the back of the card in the center of the cross. Explain that Jesus died for our sins, and all we need is admit we are sinners, acknowledge that Christ died for our sins and rose again, and live our lives for Him.

Turn card over and say that when we do this, it is like our we had never sinned. Open corners to show the card is "their card" and give to them to keep.
